

Help us help you

When you donate a hunting trip to Nordic Safari Club, your lodge will be marketed in the Scandinavian countries, for an audience interested in hunting all over the world. The marketing is done in our members magazine and on NSK's website.

As example, when you donate a hunting trip with a stay, with a given number of animals, which you decide in advance:

- The customer also pays for the drinks themselves.
- The customer pays for transport between the airport and the lodge if you drive the customer forth and back from the airport.
- The customer may procure additional animals during their hunt.
- The customer tells everyone about his stay at your lodge and recommends you to all his hunting companions.
- The customer often comes back as he is comfortable being with you, whom he knows and has fond memories of.

- Members from the Nordic Safari Club, describe their travels on the website for all other members, thus, the lodge is mentioned and recommended.
- The traveler usually takes a friend or spouse on the trip, who pays for their stay at your lodge and the animals they may want to shoot during the stay.

When you donate a hunting trip to Nordic Safari Club, you will be mentioned on the website and get an advertisement in the very exclusive magazine TROFÆ, which is sent to all of our members.

People often contact the Nordic Safari Club to hear about suggestions for destinations, it is at this time, that we refer to our partners. So that way, it is a good idea to donate a hunting trip to the Nordic Safari Club, which is a small investment for you, but you get good value for your investment!

***Contact Nordisk Safari Club at info@nordisksafariklub.com
and hear about your options for getting customers to your lodge quickly!***

Don't forget: All profit is used in our work to secure the future of hunting, nature and game!
